Water Wells Pumps Service

MAINTENANCE RECORDS

As with any machine, maintenance is critical for a long life. Yearly Maintenance checks are recommended to help keep your system operating properly. When Murray Drilling installs your system we will provide a maintenance check within 60 days of your 1 year anniversary at no charge, just call our office to schedule.

Get to know your system and if you ever notice that it's not operating the same, you see a leak or even hear a funny noise, call for service A.S.A.P. Unattended problems can lead to costly equipment repairs or replacement.

Keep track of all service work performed on your system as a handy reference, this information can also be passed on to subsequent owners.

BUILDER		DRILL DATE		EQUIPMENT COMPLETION DATE
STATE ENGINEER PERMIT #		BERNALILLO COUNTY PERMIT # (IF REQUIRED)		RIO RANCHO PERMIT # (IF REQUIRED)
DATE	PROBLEM		SERVICE PERFORMED	NOTES
